**to Decision of the Government  
of the Republic of Armenia  
No 906-N of 27 July 2017**

#### PROCEDURE

#### FOR RE-PROCESSING OF MINING WASTE

1. This Procedure shall regulate the relations pertaining to re-processing of mining waste.
2. Provisions of this Procedure shall apply to subsoil users having authorisation for extracting minerals and/or re-processing mining waste.
3. The mining waste shall be re-processed at the expense of subsoil users, in compliance with the mining waste re-processing plan.
4. During the operation of the mine and after the shut-down thereof, the person having the right to re-process mining waste and subsoil use shall be obliged to implement the measures envisaged by the mining waste re-processing plan for the purpose of preventing or minimising the damage caused to the environment and human health, as well as accidents.
5. Monitoring of the main components of the environment (air, soil, water, etc.) shall be carried out in the mining waste re-processing facility and in the affected areas.
6. The measures envisaged by the mining waste re-processing plan must be implemented by applying the best technologies, taking into consideration the technical specifications, geographical position and environmental conditions of mining waste re-processing facilities.
7. A safety certificate shall be developed and approved by the subsoil user for the mining waste re-processing facility, pursuant to the requirement of Decision of the Government of the Republic of Armenia No 702-N of 11 November 1998.
