ORDER

OF THE MINISTER OF HEALTHCARE OF THE REPUBLIC OF ARMENIA ON
APPROVING LISTS OF SEPARATE GOODS (HUMAN ORGANS AND/OR TISSUES,
BLOOD AND ITS COMPONENTS, MEDICINES AND PHARMACEUTAL
SUBSTANCES, NARCOTIC DRUGS OR PSYCHOTROPIC SUBSTANCES OR THEIR
PRECURSORS) SUBJECT TO RESTRICTIONS IN TRADE BY THE REPUBLIC OF
ARMENIA WITH THIRD COUNTRIES ACCORDING TO THE CODES OF THE
COMMODITY NOMENCLATURE OF FOREIGN ECONOMIC ACTIVITIES

Having regard to point 6 of Decision of the Government of the Republic No 1524-N of 25 December 2014, subpoint (d) of point 12 of the Statute of the Ministry of

Healthcare of the Republic of Armenia approved by Decision of the Government of the Republic of Armenia No 1300-N of 15 August 2002:

I HEREBY ORDER:

1. To approve lists of separate goods subject to restrictions in trade by the Republic of Armenia with third countries according to the codes of the Commodity Nomenclature of Foreign Economic Activities, pursuant to the Annex.

Minister

A. Muradyan

Isomers, including stereoisomers of the substances and agents listed above in the present List (except for the headings for which concentration values are determined), in case when the existence of such isomers, including stereoisomers, is possible under the given chemical designation.

Esters and ethers of the substances and agents listed above in the present List (except for the headings for which concentration values are determined).

Salts of the substances listed above in the present List where the existence of such salts is possible (except for sulfuric acid, hydrochloric acid and acetic acid).

Preparations containing the substances and agents listed above in the present List (except for the headings for which concentration values are determined), in any form and physical state, irrespective of their quantities and neutral components (water, starch, sugar, sodium bicarbonate, talc, etc.), except for combination drug substances, which are not listed in the present List, as well as mixtures, which contain in their composition precursors with equal or excess concentrations listed in the present List.

With regard to heading 370 "Thionyl chloride", to define that licencing shall apply in case when the good is not controlled under export control system.

Mixtures (substances for which concentration values are determined) containing a number of precursors, that are indicated with an asterisk "*", are subject to control, if their total concentration equals to or exceeds the concentration determined for the substance from among these substances, which is higher.

Mixtures (substances for which concentration values are determined in the present List) containing a number of precursors, that are not indicated with an asterisk "*", or mixtures that represent themselves combination of precursors not indicated and indicated with an asterisk "*", are subject to control, where the total concentration of such mixture of precursors equals to or exceeds the concentration value of the precursor from among these precursors, which is the smallest.

Note:

Attributing substances to relevant narcotic drugs, psychotropic substances and their precursors listed in the present List shall not depend on the firm (trade) names, synonyms of these substances, or the letter designation which are used as their name.

Control over combination preparations containing active pharmaceutical ingredients other than the agents and substances listed in the present List shall be determined on a case-by-case basis by listing the given combination preparation in the present List. Concentration of substances referred to in the present List shall be determined on the basis of the mass of the substance in the mixture (solvent).

For the purpose of use of this List it is necessary to be guided both by the CN FEA Code and the international nonproprietary names or other scientific or chemical names or the generic description of the narcotic drug, psychotropic substances and their precursors.
